HELIX

LOGISTICS

COMPANY PROFILE | GLOBAL FREIGHT & SUPPLY-CHAIN LOGISTICS

Moving the world's goods, intelligently

Helix Logistics connects ocean, air, road and warehouse networks into one integrated supply chain, giving shippers end-to-end visibility from factory floor to front door.

FOUNDED	HEADQUARTERS	EMPLOYEES	REVENUE FY2025	OWNERSHIP
2005	Dubai, UAE	9,200	$2.34B	Privately held

Hypothetical company created for illustrative purposes. Any resemblance to real organizations is coincidental.

Company Overview

Helix Logistics started in 2005 with 12 trucks serving Gulf trade lanes. It has since grown into a global provider of freight forwarding, contract warehousing and last-mile delivery, operating 64 warehouses in 38 countries and handling more than 1.1 million shipments a month.

The company's edge is its HelixTrack digital platform, which gives customers a single real-time view of every shipment, predicts delays before they happen and automates customs documentation. Around 80% of customers use two or more Helix services, which lifts retention and margin.

> ***Mission***
> *To make global trade simple, reliable and sustainable for businesses of every size.*

Core Values

Reliability
On-time, in-full delivery is the standard we are measured against.

Safety
Nobody gets hurt moving freight; targets are zero harm.

Sustainability
Cutting emissions per shipment every year.

Customer Obsession
We solve problems before they become our customers' problems.

Milestones

2005	Founded in Dubai with a fleet of 12 trucks.
2009	First regional hub opened; expansion into South Asia.
2013	Air-freight division launched with charter partners.
2017	HelixTrack digital platform released.
2021	Acquisition of a European last-mile delivery network.
2025	64 warehouses in 38 countries; 40% of urban fleet electric.

Products and Services

Ocean & Air Freight
Full-container, less-than-container and express air services on more than 300 trade lanes.

Contract Warehousing
Automated, multi-client fulfillment centers with inventory, packing and returns handling.

Last-Mile Network
Same-day and next-day urban delivery using electric vans, bikes and parcel lockers.

HelixTrack
Visibility and analytics platform with live tracking, delay prediction and carbon reporting.

Market Position

Nearshoring, rising e-commerce volumes and demand for resilient supply chains are reshaping freight flows. Helix competes with global forwarders and regional carriers, winning on integrated service and technology.

Competitive strengths

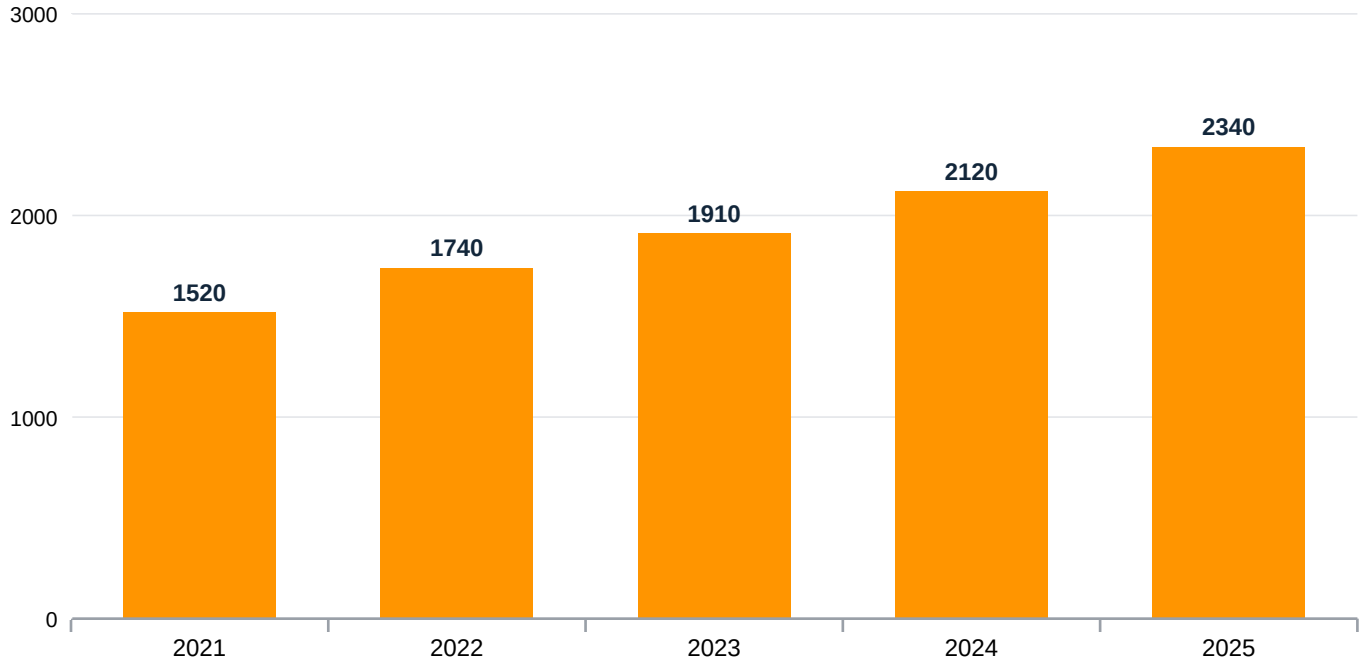

- On-time delivery rate of 96.4% across all modes in 2025
- Strong presence in emerging corridors linking the Gulf, Africa, South Asia and Europe
- Asset-light freight model combined with owned warehousing for stability
- Targeting 30% lower emissions per shipment by 2030 versus 2022

Financial Snapshot

Figures in US$ millions, fiscal years ending December. All figures are hypothetical.

Fiscal year	Revenue ($M)	Growth	Operating margin	Net income ($M)
2021	1,520	-	5.2%	62
2022	1,740	14.5%	6.4%	83
2023	1,910	9.8%	6.9%	95
2024	2,120	11.0%	7.5%	112
2025	2,340	10.4%	8.1%	131

Revenue by fiscal year ($M)

Commentary

Revenue has grown about 11% a year, with a steady rise in margin as digital tools reduced manual work and higher-value warehousing and last-mile services grew in the mix.

Leadership Team

Omar Al-Rashid
Chief Executive Officer and Founder

Built the company from a regional trucking firm into a global network.

Ingrid Sorensen
Chief Operating Officer

Oversees global operations, safety and network performance.

Vikram Shah
Chief Technology Officer

Leads HelixTrack and automation across warehouses and fleets.

Maria Fontaine
Chief Financial Officer

Responsible for capital allocation, treasury and investor relations.

Strategic Outlook

- Open six automated fulfillment hubs in Africa and South Asia by 2028.
- Electrify 70% of the urban delivery fleet by 2029.
- Extend HelixTrack to third-party carriers as a standalone software product.
- Pursue selective acquisitions in cold-chain and healthcare logistics.
